

I Made Ari Jaya Kusuma

Software Engineer | Bali, Indonesia

E : arijaya130@gmail.com | G : github.com/AriJaya07 | L : [Ari Jaya | LinkedIn](#)

SUMMARY

I have developed expertise in software development through hands-on experience with real-world projects, leveraging various learning resources and practical applications. To further enhance my skills, I actively explore new technologies, work on complex coding challenges, and continuously improve my problem-solving abilities.

EDUCATION & CERTIFICATIONS

- **Udemy.com - Full-Stack Web Development** 2022 – present
- **Engineering Mechanical & Electrical** 2019 – 2021
- **Senior High School** 2016 – 2019

TECHNICAL SKILLS

- **Languages & Frameworks:** Next.js | React | Angular.js | Nest.js | Golang | Django | Python | MySQL
- **Knowledgeable:** GIT | Full-Stack Development | Mobile App Development | Web Development

PERSONAL PROJECTS

Personal Portfolio

- Developed a personal portfolio to highlight my skills, integrated with EmailJS for direct messaging.
- Built using React.js with modern design and deployed on Firebase.
- Implemented dark mode and light mode functionality using Context API, ensuring full mobile responsiveness.
- Live demo: <https://ari-portfolio.web.app>

Management System Web

- Created a full-stack management system using Next.js (frontend), Golang (backend), and MySQL (database).
- Designed role-based access control (Admin and Member) for managing food stall and car garage operations.
- Developed responsive landing pages with data visualization for transaction history and business management.
- Live demo: <https://rentmanagements.onrender.com>

Bali News mobile app

- Built a cross-platform mobile app using React Native and Expo to provide the latest news and updates from Bali
- Integrated dynamic content through a custom-built API using Nest.js and MySQL.
- Successfully launched the Bali News app on both the Apple App Store and Google Play Store, receiving positive user feedback and a growing user base.
- Live demo: [Bali News on the App Store \(apple.com\)](#) & [Bali News - Aplikasi di Google Play](#).

ADDITIONAL CONTRIBUTIONS

EraKoding Website

- I built and maintain erakoding, a platform where I share my knowledge on various programming languages in Bahasa Indonesia. The site is aimed at helping the Indonesian tech community gain valuable insights into software development practices and industry trends.
- Live: <https://www.erakoding.ink>

YouTube Channel - EraKoding

- I regularly upload content to my YouTube channel, EraKoding, where I provide programming tutorials, reviews, and other tech-related content in Bahasa Indonesia to share my knowledge with a broader audience.
- Live: <https://www.youtube.com/@erakoding>
